

# FP7 COSMOS

## Application scenarios

Juan Rico  
Atos Research and Innovation

**Atos**

# COSMOS Application Scenarios

Project Key topics:

- Metadata search
- Cloud data storage
- Experience Sharing
- Situational Awareness

Smart Transport Scenario  
connected buses

Madrid, Spain

Smart Building Scenario  
connected houses

Camden, UK

# Challenges

Mapping technical contributions into real scenarios

Generic architecture vs Testbed oriented

Reusability of testbed solution

# From pilot to large scale

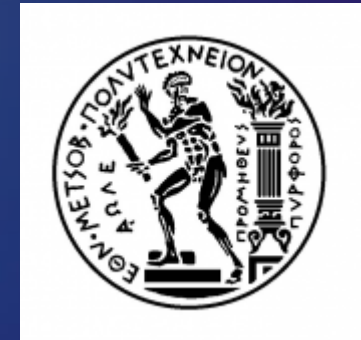

Large scale implies new data sources for covering larger areas

Available data is not relevant enough for extending to the whole city

Heterogeneity prevent us from using other resources for pattern training

# Thank you!

The research leading to these results has received funding from the EC Seventh Framework Programme FP7/2007-2011 under Grant Agreement n° 609043
